ARTLINE  STUDIO

Stacy Garcia Blue Label, is known for their trend-driven, colorful product and patterns for the hospitality industry. In collaboration with Artline Studio, this collection showcases the creative process of utilizing innovative crafting methods to create striking pieces through a plethora of materials and substrates.

From colorful abstract pattern to bold tropical prints, every design is expressive and playful, yet sophisticated. An eclectic mix of materials like silver and bronze aluminum, textural watercolor paper, organic wood, and silk give each piece a unique, one-of-a-kind feel. With an endless amount of captivating designs right at your fingertips, this collaboration empowers you to design the future with Stacy Garcia Blue Label for **Artline Studio**.

Front Cover Artwork: Super Bloom

THE PROCESS

Drop by the **Artline Studio website** and fill out a request for any project! Tell us as much about your project as possible. Themes, color pallets, wall dimensions, and artwork sizes are all helpful when customizing your artwork. Yes, *customizing*.

Every piece in this catalog is completely customizable. Need a **different color**? No problem. Want to have the art on a **different substrate**? We can do that! The perfect piece is too big for your space? We can **resize**! The only limits are your timeline and budget. Our art team wants to make your vision a **reality**!

After final approval of your artwork, Artline Studio sends your project into production. Artline Group (*Artline Studio's parent company*) then provides the careful production, delivery, and installation of your artwork. We can't wait to create the perfect work of art for your interior!
