LIGHTED MIRRORS

ELECTRICAL WIRE INFORMATION

You can connect the wires that are coming out of the center of the back of the mirror directly to your electrical connection box. The lead contains 3 wires:

- Green = GROUND wire - Connect to ground wire in your box.
- White = NEUTRAL wire - Connect to the white neutral wire in your box.
- Black = HOT/LIVE wire - connect to the black hot wire in your box.

If the mirror is with a plug as below, connect the plug into the wall outlet.

! WARNING

Please read these instructions thoroughly before using this product. Save these instructions for future use.

IMPORTANT SAFETY INSTRUCTIONS

When using an electrical mirror basic precautions should always be followed, including the following:

! DANGER

To reduce the risk of electric shock, always unplug the furnishing from the electrical outlet before cleaning.

! WARNING RISK OF ELECTRIC SHOCK

This product must be connected to a grounded metal, permanent wiring system, or an equipment-grounding conductor must be run with the circuit conducts and

INSTALLATION INSTRUCTIONS

Installation and maintenance must be done by a licensed electrician.

connected to the equipment grounding terminal or lead to the product.

DO NOT remove the black triangle plastic corner mirror protectors before assembly of the mirror.

USER MAINTENANCE INSTRUCTIONS

The user cannot do the maintenance operations by themselves and need to contact the supplier or a qualified electrician.

- Do not strike glass with hard or pointed items.
- Do not allow moisture to come into contact with the lamp.
- Do not use any chemical or abusive cleaner as they may damage the surface of the products.

Cleaning: Mirrors should only be cleaned with glass cleaner and a soft lint free cloth.

SMALL CHILDREN AND PETS WARNING

After mirror is unpacked, immediately dispose of packaging.

WARRANTY

This warranty does not cover removal, installation, or freight costs of products. This warranty shall not extend to anyone other than the original purchaser of the Artline Group product. Normal wear and tear, slight black edging, and slight de-silvering are not covered by this warranty. Corrosion or de-silvering on edges of mirrors with frames caused by moisture between the frame and the mirror are not covered by this warranty. Scratches that occur on decorative or structural frames after installation are not covered by this warranty. Artline Group does not warrant its mirrors that include a cutout(s) with a defogger. Blemishes, marks, or light reflections visible behind frames are not covered by this warranty. Artline Group does not warrant that its electronic components to be compatible with future variations and technology standards, automation, light control, wall controls nor does it warrant reverse compatibility of software. It is the purchaser's responsibility to test and verify compatibility.

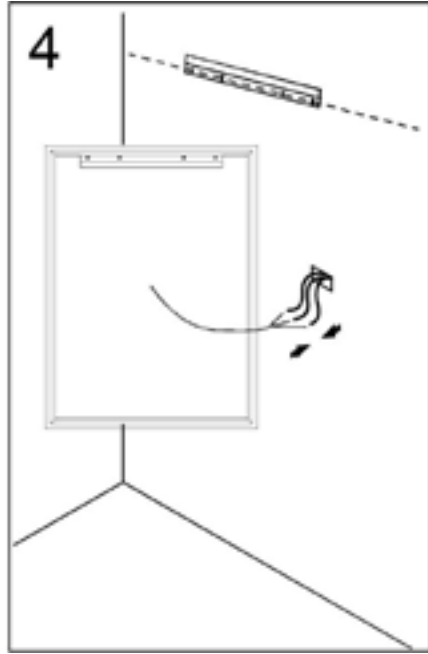

INSTALLATION GUIDE

STEP 1: Select the desired installation orientation. Orientation arrow mark (A) or (B) can be found on the back plate or back of the mirror.

STEP 2: Mark on the wall the exact position of mounting screw holes.

STEP 3: Install the back plate on the wall. Make sure it is firmly secured.

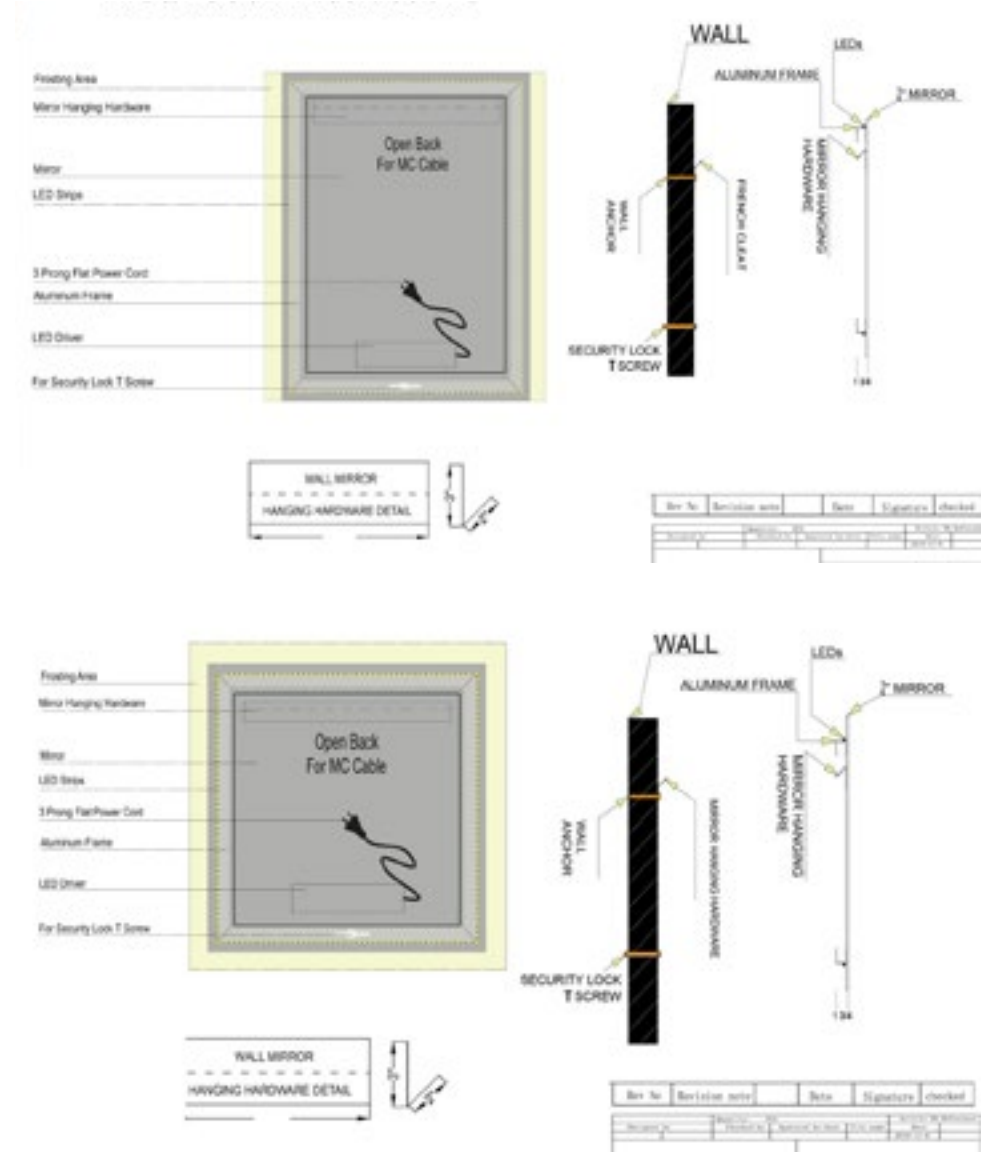

STEP 4: Insert power plug into an outlet, or cut the plug if hardwiring is necessary.

STEP 5: Insert the mirror onto the back plate cleats.

STEP 6: Remove corner protectors, peel off the surface protector sheet, and clean the mirror. Turn on the switch and enjoy your lighted mirror!
