Artline GROUP

Established in 1978, we are known for our vast years of experience and providing unique solutions to the most complex requirements.

Our production facilities geographically located throughout the country, can save on both lead time and cost.

We are your turn-key provider of art and mirrors. From Design to production to installation, we cover all aspects of fulfillment.

We are recognized as a leader in the industry, our firm is well known in healthcare, corporate, government and hospitality.

Our philosophy of treating each project individually enables our art department to create art suited to your project.

We specialize in printing on various materials, including acrylic, canvas, aluminum, vinyl, and much more.

Your Imagination, Our Creation.

LED Capabilities

Fabric with LED Light

Tradeshow Example

The so-called Light Guide Plate (LGP) is a thin high-tech acrylic plate with a grating pattern of V-grooves or laser dots that have been made computer-controlled. The grating pattern in the acrylic plate is determined separately for each measure and provides a smooth and uniform light output. The light itself is obtained by LED strips with are placed into the side of the acrylic plate. LED lighting works on 12 volts, is very economical, has a long life and is absolutely safe in public spaces!

- LGP has a thickness of only 6 or 8 mm
- LGP may be placed in different frames
- LGP has high light output
- The light color of the LED lighting is 6300K
- High quality Cree LED is used in the LGP
- Cree LED is maintenance free and long life
- LGP is also available for double sided

Laser Etching with LED

DEA Memorial Wall

Department of State Headquarters,
Washington, DC

Artline was chosen to provide a custom Memorial Wall for the DEA Agents who perished in the line of duty. The wall was created using solid glass with names of the agents laser etched and then framed with LED lights.

Art on Wood

An artwork cut into a custom sized flat piece of wood.
Custom panels can be used many different ways:

Components to cabinet doors or other furniture applications

Built-in for room divider partitions or privacy screens

Design element directly mounted to walls, ceilings or archways, Return air registers, and Window coverings.

We can scale or modify these artworks, or create a new artwork from your provided sketch or photo.

Pattern Art

Pattern Art is a flexible media that can be displayed floating between glass or mounted to matboard. It is self-adhering and bonds with glass instantly, or mount it to matboard with a few seconds of heat. Each piece is hand made and hand painted. Three patterns to choose from; any shape, any size, any color.

Pick your pattern.

Squiggle, Spiral or Grid, as shown below, respectively.

Pick your shape and size.

Circle, rectangle or square. Provide us with dimensions up to 36", and we'll build the Pattern Art according to your specifications.

Pattern Art

Samples of Patterns

Pick your color.

We currently have four metallics and six colors. Two-tone ombre applications or all-over color are available. Provide a Pantone swatch for custom colors.

Metallics: Antique Gold, Champagne, Gun Metal, Bronze

Colors: Black, White, Teal, Green, Deep Red and Deep Purple.
